

Compression Experts

Standard, configurable and customized compression packages for any application.

We offer a diverse and broad product range including warmweather and arctic-style, reciprocating, rotary screw and rotary vane compressor packages. We also design and fabricate complex, high-horsepower reciprocating compression packages capable of either onshore or offshore deployment.

Partners with Top Brands

We are proud to be a worldwide Ariel distributor, and we are also licensed to work with the most established and reliable brands in the industry including, CAT, Frick, Ro-Flo and Innio/Waukesha.

Tailored engineering and design

As a global leader in natural gas compression for more than 20 years, Compass engineering ensures consistent quality, predictable performance, simple operation and easy maintenance for all our compressor packages. From designing, building, installing, and commissioning, to maintaining and servicing your compression equipment, we provide high-performing packages that fit each client's specific needs.

Single-source solution

We have 400,000 square feet of production facilities including our Brittmoore Road Facility in Houston, TX, and our Frontier Facility in Calgary, AB, that enable us to seamlessly provide our clients with single-source solutions.

Our compression capabilities include:

- Reciprocating, rotary screw and rotary vane compressors
- Electric and natural gas engine drivers
- Standard, configurable and custom-engineered warm-weather packages (manufactured in our Brittmoore Road Facility)
- Variable applications:
 - > Natural gas gathering
 - > Pipeline transmission
 - > Gas lift compressors
 - > Storage/withdrawal
 - > Refrigeration compression
 - > Inlet/sales gas
 - > Overheads compression
 - > Vapor recovery compression
 - > Acid gas injection
 - > Fuel gas boosting
 - > Landfill gas recovery
 - > Specialty applications (He, H₂, Air)

Compass Commitment

With our Retrofit and Parts + Service divisions supporting our packages, we are committed to providing our customers with expert solutions and exceptional experiences through all stages of a project.
